

USAT

INVERTER 800W

Model:SDA-800

Features:

Modified Sine Wave Power Inverter
Regulated output to protect equipment from voltage spikes and fluctuations
Low voltage shutdown prevents total battery discharge
DC terminals for direct battery connection
totally silent operation
Compact size for convenient use and storage
LED indicator confirms fault condition
Power ON/OFF Switch

Specification:

1. Input voltage Range: DC10-15V/20-30V
2. Output voltage: AC220V
3. Output frequency: 50Hz+/-2Hz
4. Fuse: 10A/15A/20A/40A/70A
5. Low battery alarm (nominal): 10.4-11.0v
6. Low battery shutdown point (nominal): 9.7-10.3v
7. High battery shutdown point (nominal): 14.5-15.5v
8. Battery drain with on AC (at 12V input): <0.3A
9. Peak efficiency: >90%
10. Durative output power: 800W
11. Twinkling maximum power: 1600W
12. Output waveform: Modified Modified Sine
13. Size: 191*95*55(mm)
14. Weight: 821g

Made in China
