

412 ARDUINO Potentiometry 10k Slider

Description:

- USES the high quality slide appliances, stable and reliable performance.
- Dual analog output, 0 - VCC analog voltage signal.

Specifications:

- Size: 90 * 20 mm
- Color: Red
- Voltage: 3.3 V, 5 V
- Port: analog
- Resistance: 10 k
- Platform: For Arduino, For MCU, For ARM, and other single chip micro.
