

412 ARDUINO SENSOR SHIELD NANO

Description:

This is a I/O extension shield for Arduino Nano making connection easier.

Features:

- Expansion shield for Arduino Nano
- Pin out for 14 digital input/output pins
- Pin out for 6 PWM outputs
- Pin out for 8 analog inputs
- Pin out for I2C Interface
- Power jack
- Reset button
- LED for power indicator
- AMS1117 3.3V Output Voltage
- Also compatible with Arduino UNO after soldering pin headers to this shield
